Keyword: **Sophisticated** - a person, idea, or object that is highly developed, complex, and refined.

Your topic needs to be something you can persuade people to believe in or change their habits for. There are examples below, but you might like to research topic ideas yourself – complex ideas and sophisticated thinking about our wider world often result in higher grades.

Which element of the three Vs are you going to find most challenging? How will you address this?

Mastering the VERBAL	Mastering the VOCAL	Mastering the VISUAL
<i>How can I speak powerfully through the words and phrases I choose?</i>	<i>How can I use my voice and its rhythms to be a powerful speaker?</i>	<i>How can I use my body to be a powerful speaker?</i>
Recite lines clearly Pronounce vocabulary correctly Do not rely on reading completely from the script Speak at the correct time	Clarity, fluency and projection of speech Pace of speech Using deliberate pauses Placing emphasis on certain words Varying pitch of my speech	Making eye contact Using facial expressions Hand gestures and body language Appearance and Posture Movement Consider your position on stage
You will find all of this much easier if what you are speaking about is known and rehearsed rather than read out.
